# About the Course

Klovers is an online Korean academy for Arabic-speaking students. Classes are small and live, so every student gets real speaking time with the teacher, not just listening time.

Your trial is a single 30-minute live class. Regular classes run 60 minutes, once a week, in small groups of 3 to 8 students on Google Meet.

Materials are written in-house in Korean and English, with Arabic support where needed. Every level has its own Klovers book, given free when your group starts, so nothing is photocopied and nothing is missing.
